**PROFESSIONAL ICONS OF PUNE**

## AN EYE FOR ART

Sanjay made ample use of this single assignment to design for various clients in the next five years and the word soon spread rapidly, catapulting him to one of the top most interior designers of the city today. His success story may seem like a fairy tale but it had its share of struggle. Sanjay used to come to clients from Pune to Mumbai to Aurangabad and even to clients from Pune to Mumbai to Aurangabad to Laxavada. Sanjay recalls an incident where he was called upon to bid for a project and since it was still early days he had to be used to commute on his bike everywhere. He was stunned to learn that the only reason he couldn't get the

and Architect Vinodh Mathur and absolutely believe in the power of networking with other people.

Back in his belief in networking that he has created a free platform to help others connect freely and benefit from each other. He signs off by giving a piece of advice for the next generation. "Everybody wants easy money but the truth is better, there is no easy money. The only way you can make money is by working hard, seizing the moment and dedicating yourself to build on top of that moment."

**“** Everybody wants easy money but the truth is bitter, there is no easy money. The only way you earn money is by working hard, seizing the moment and dedicating yourself to build on top of that moment. **”**

project was because he failed to create a good enough impression on the prospective client. This was an eye opener and not to be bulldozed by such setbacks, he approached Bank of Maharashtra for a loan. Once again luck supported him and he received a loan quickly and that helped him to buy a small office and a car. Once again his business acumen and quick thinking repaid him big rewards as his status improved and he gained more confidence. So does he believe in luck? He definitely does and acknowledges his wife to be the reason for the luck.

The next milestone to expand his business came in form of clients who asked him questions from the aspect of Vastu. Seeing an opportunity in Vastu Consultancy, he motivated his lady luck (wife) to pursue a course in Vastu Shastra. Complementing his own business acumen and intelligence, his wife, Dr. Swati Navgire, awarded him equally when she went on to complete her Ph.D. in Vastu Shastra. This, he underlines, wasn't luck but an opportunity that he saw and then seized immediately and worked with his wife, with a single minded determination to achieve success. Today, his company is able to offer integrated solutions to clients with interior designing consultation and services coupled with Vastu consultancy, which in turn has increased his reputation. (Not only residential projects but he can also offer for co-operative and individual office, Hotel, Restaurant, educational hospital etc.)

His success again, Sanjay Navgire believes in work, believe and in a family man to the core. A viral disappointment, he closes office at seven sharp, as post that it's family time. He finds inspiration in Hindu's Creator

**SANJAY NAVGIRE**  
INTERIOR DESIGNER

Pune is a bustling metro city with a vibrant population and a growth rate that is equal to all top metros in the country. Little wonder that real estate has been a booming industry and all associated professions such as interior designing have been equally popular here. With interior designers available by the dozen and competition at its peak, how does one survive and go on to make a name for them? Ask Sanjay Navgire, a renowned interior designer in the Viharwadi area of Pune and he will probably say "Lots of hard work and a definite stroke of luck." However there is a good reason why he will say so because his own career has been defined in pretty much the same way, filled with hard work and fueled by a stroke of luck, from time to time.

Sanjay had completed his Interior Designing course from Aurangabad. Post completion of this course, he was Assistant Manager for four to five years. His father being an Art Master from the JJ School of Art, right from childhood, Sanjay Navgire had an attraction towards art and creativity. While he worked hard as an Interior Designer in Aurangabad, the dream was always to start something of his own. This is where the stroke of luck was waiting to strike.

While looking out, Sanjay came across a construction site of Mr. Rameshwar Developers who were building their project 'Jai Ganesh Hahwa', in Viharwadi, then. He casually approached Rameshwar developers, to enquire about the cost to acquire an office. On knowing Sanjay's expertise, they in turn offered him an opportunity to work on their art office there.

While luck struck in the form of his lady luck bringing him the biggest opportunity, it was wise of Sanjay to use his business acumen to bounce upon the opportunity thrown at him. Impressed by his hard work, dedication and the quality of work delivered, Rameshwar Developers signed him for the entire project, giving him a steady stream of business for the next six years and the rest, as they say, is history.

# Vaastu Shastra : consultancy

Whatever may be your Vaastu?  
Doesn't matter!

All this talk of Vaastu is fine..... but, can it applied in its entirety to home, workplace or industry?..... May be not, because practical application of Vaastu Shastra becomes very difficult in today's life style, due to the pressure to purchase plots & buildings, not conforming to Vedic Vaastu principles, especially in big cities and metro towns.

There are many people who want to enjoy benefits of Vedic vaastu shastra but either has already bought the plot or flat or is using a constructed building. So what should they do? Buy another plot and build, a new building there according to Vedic Vaastu Shastra? We know that this is nearly impossible, But don't worry! We will make it positive results without affecting your present set up and THAT..... TOO AT REASONABLE FEES.
